I'm Alessio, I specialise in stylised documentaries, narrative work and a wide range of branded content.

I am passionate about storytelling and believe I have keen skills that allow me to move fast and take on multiple roles such as 'self-shooting director.'

Over the last few years I have created for household names such as Disney, Leica, Bose, Bacardi, BMW, Sennheiser, Goose Island, 5 Gum, Mobike, Huawei and Land Rover.

I have a keen knowledge of all cameras with Reds being my preferred choice.

Aside from my client work I am also a growing KOL and have one of the largest dual-language multi-platform social media channels made in China (Mamahuhu), with Timeout Magazine listing me in Shanghai's "Top 50 Movers, Shakers and Creatives in 2018."

On our channels we make comedy and drama short films and documentaries. Currently we have over 190,000 subscribers on YouTube alone with some videos sponsored from brands such as DiDi and Starbucks. These statistics should speak for my ability to engage an audience.
