

Miles Trotter

Age - 23

About

From a young-age I have had a strong interest in all things film, especially with visuals. With this interest, I worked on developing my skills as a film-maker in all aspects of film-making through video-tutorials, work experiences and residential courses outwith school. I believe I would integrate well into your work place as I am a committed, motivated and hard-working person. I am good at solving problems under pressure and will not give up until the job is done. I pride myself on my time keeping and enjoy speaking to people. Always striving to help them as I serve them and find out what best suits their needs and wants.

Own and drive my own van.
